12,000 BTUH Cooling & Electric Heat Builders Series

Our Thru-the-Wall Series is especially designed for the heavy-duty requirements found in commercial applications, but is versatile enough for home, commercial, or industrial use.

The standard mounting frame allows the units to adapt to virtually any existing wall sleeve. Their solid steel construction, corrosion-resistant paint, and attractive styling will provide years of durable service.

Builders, architects, and installing dealers will appreciate its flexibility as a replacement unit, or in new construction.

The BGE-123 is a cooling with electric heat model featuring electronic controls and charged with the environmentally-friendly refrigerant R-410A. It's rated at 12,000 BTUH, with enough capacity for a space of approximately 450-550 square feet.

The cabinet fits existing wall sleeves and have a protective rear grille. The solid steel

construction, corrosion-resistant paint, and attractive styling will provide years of durable service.

208/230V 60Hz

Fits standard wall sleeves.

IMPORTANT: Specifications can change. Always wait to cut a hole in structure until unit arrives and dimensions can be verified.

Features

Electronic Digital Controls—Comes with fully featured remote, easy to use control pad.

Heating Option—The BGE series is designed for supplemental electric heat only, thermostat cycles heating element on and off.

Efficient Operation—Energy saver function, auto restart, 24-hour on/off timer, auto and sleep modes.

Slide-Out Filter—Easy to remove, front-mounted, slide-out filter is a breeze to clean. Filter is designed to trap dust and other foreign particles, keeping indoor air cleaner. A check filter light on the control pad will signal when filter maintenance is required.

Adjustable Air Direction—The 4-way air directional louvers allow users to direct the air flow up or down and left or right throughout the room as needed.

Durable Cabinet—Painted for protection from corrosion.

Accessories

EA448F Wall Sleeve

For BG and BGE Series. Manufactured of G-90 steel and painted for durability. The folding design saves space during shipment and storage and is easily and quickly assembled.

25-1/2"W x 15-1/4"H x 17-1/2"D
